

Kattsafe® Height access
and fall protection

LADDER PROTECTOR

GRLP

PRODUCT OVERVIEW

The **Kattsafe aluminum Ladder Protector** is an OSHA compliant and cost-effective controlled access and passive fall protection solution for a permanent rooftop access ladder. Featuring an innovative non-penetrating design, the Kattsafe Ladder Protector ensures the user is an OSHA compliant distance from the unprotected edge.

Our GWLCK Ladder connection Kit Brackets ensure a quick and easy installation to all Kattsafe ladders or any existing vertical fixed ladder. The Kattsafe Ladder Protector comes completely boxed with our GW390A Adjustable Self-Closing gate.

Features

- Assembles in minutes
- Connects to any vertical fixed ladder
- Mill-finished aluminum as standard, yellow option available
- In stock and ready to ship
- Includes a self-closing gate
- OSHA compliant
- Made in the USA
