6072	60" x 72"	63" x 75"	64-1/4" x 76-1/4"

SELF-FLASHING BASE:

VORTEX BASE (STEEL ONLY):

GENERAL NOTES:

- Materials shown on this drawing may not be readily available in all sizes.
- Specification values may vary based on size and/or type of smoke vent.
- Care should be taken when gathering site information for roof openings.
- Warranty is standard ten (10) years from the date of purchase, exceptions do apply. See full 10-year warranty document for more details.
- The owner must take steps to protect personnel who may be in the area of the smoke vents . The owner should restrict access only to authorized personnel who have been adequately cautioned as to the location of the smoke vents and informed of the warnings. Because there is a risk of fall and resulting personal injury, we recommed protective guardrails, internal safety screens around all smoke vents, as well use of fall restraint systems. We also recommend that smoke vents are inspected annually for evidence of damage, such as cracks or penetrations. Any damage should be repaired immediately, and the area beneath the smoke vent should be safeguarded against falling objects.

SELECTIONS:

SIZE:

☐ 4848
☐ 4872

☒ 4896
